Research Project Title: Exploring students' attitudes, beliefs, and behaviors about using Generative AI to complete assignments.

Research Investigator: Jay Wang

Research Summary

You are invited to participate in research that aims to explore students' attitudes, beliefs, and behaviors about using Generative AI to complete assignments. Your insights will help us better evaluate the environment of using Generative AI in academic assessments.

What do you need to do?

The interview will take approximately 20-30 minutes, and you will be asked questions including your attitudes, beliefs, and behaviors about using Generative AI to complete assignments.

What information will be recorded?

The interview will be audio-recorded and a transcript will be created.

Confidentiality and deletion policy

All information will be anonymized and kept strictly confidential, only accessible to the research team. The data will be used solely for research purposes and may appear in reports or presentations in anonymous form. All data including audio recordings and transcripts, will be securely stored for five years after the research and deleted by university policies. If you want to delete the data you provided during the interview, please contact us.

What if you want to withdraw from the study?

There are no anticipated risks associated with your participation, and you are free to withdraw from the research at any point without providing the reason. If you choose to withdraw, your data will be securely deleted and not included in the research.

Where can you get more information?
